Attn: Ray Grenier K9KHW

Dear Ray,

As in the past, I would like to express a big Thank You to AES from the Board and Members of the Milwaukee Radio Amateurs' Club for providing space for a club table as well as providing space for testing at Superfest 2001. The club table was responsible for attracting some prospective members (and reminding a few of their late dues) and the testing group tested 28 people. Everyone at AES went out of their way to make sure we had what we needed.

I would also like to thank you for the use of your facility for our license classes. So far this year we have had a technician class and a general class. The Technician class had 10 people in attendance. All 10 have successfully passed their exam. The General class also had 10 people. We will not really know the results of that class for some time as people may be somewhat slower to take that exam (but there have been some upgrades including one Extra). We have another Technician class scheduled to start September 22.

We do our best to make sure people know about the services provided to the ham community by AES. We look forward to continue working together in the future. Please forward our thanks to all parties involved. Again Thank You.

73,

David B. DeFebo WB9BWP
President
